To All Equipment Register Users,

This new format represents the functional merging of our on-line computer equipment management system, UCSS (Unit/Car Status System), and off-line support areas, like this Equipment Register.

The Register is produced by computer, and represents the current status of each car and locomotive, as of printing time. Since the equipment assignment situation is subject to change, any time on the on-line record (DUR) conflicts with this Register, the on-line system is to be considered correct. Any such changes will be reflected in the next Register or amendment.

This is a new format, with a new data base, and even though we have been very careful, inaccuracies are to be expected. We welcome all constructive criticism, because we rely on you, the users, to help us make sure we have the most current, correct information.

Equipment Register And Maintenance Assignment

This Equipment Register contains a complete listing of all Amtrak owned and leased equipment, passenger cars, locomotives, and maintenance of way.

The Register consists of four basic parts:

1. Introduction and explanation of codes used,
2. Equipment Assignment Summary Matrix,
3. Equipment Register,
4. Individual Maintenance Facility Assignments.

A complete, revised Equipment Register and Maintenance Assignment is issued twice a year, May and November. Amendments are issued monthly.

Distribution as follows:

Amtrak - Field distribution is made through the Division Manager. Headquarters distribution is made through the department head. All requests for copies are to be made to the Division Manager, or department head, who will request directly from the Manager, Consists and Equipment Assignment.

Contract Railroads - Field distribution is made through the NRPC Operations Officer for each railroad. All requests for copies are to be made to the NRPC Operations Officer, who will request directly from the Manager, Consists and Equipment Assignment.

Others - Requests to be made directly to the Manager, Consists and Equipment Assignment.

Explanation of facility and city codes in the Maintenance Assignments is found in green pages.

Questions can be addressed to the Manager, Consists and Equipment Assignment.
